DETAILED ACTION

Response to Arguments

Applicants arguments/amendments have overcome the previously relied upon claim objections and all 112, second paragraph and prior art rejections. However, new grounds of rejection appear below for some of Applicants claims. This Office action is non-final owing to the new grounds of rejection not necessitated by amendment.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 37-39 and 42-44 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Lenick, Jr. (US Pat. 5,210,133).

Claims 37-39 and 42-44 are product-by-process claims. Even though product-by-process claims are limited and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even thought the prior art product was made by a different process. *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

Claims 37-39 and 44: O'Lenick, Jr. exemplifies (examples 50-52) polymers prepared by reaction of a silicone diol and a diacid component. The product is a polymer which fully anticipates all of the structural limitations of instant claims 1 and 34. O'Lenick, Jr. teaches preparing coating compositions comprising these polymers (2:47-57).

Claims 42 and 43: While O'Lenick, Jr. does not explicitly teach that the compositions taught therein are antifouling coatings or film compositions, such compositions need only be capable of serving such roles.

Allowable Subject Matter

Page 3

Art Unit: 1796

Claims 1-35, 40, 41 and 46-52 are allowed for reasons given in the previous Office action.

Claim 45 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Specifically, none of the art of record which teaches the poly(silyl esters) of instant claim 1 teach or suggest preparing implantable medical devices which are coated with a coating or film composition of instant claim 39. Lenick, Jr., which is believed to teach the polymers of instant claim 1 (not the method of instant claim 1), only teaches that such compositions are used in cosmetic formulations and does not teach or suggest coating implantable medical or veterinary devices with the polymers taught therein.

Relevant Art Cited

Additional prior art documents which are relevant to Applicants invention can be found on the attached PTO-892 form.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT LOEWE whose telephone number is (571)270-3298. The examiner can normally be reached on Monday through Friday from 5:30 AM to 3:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
